

STRENGTH IN NUMBERS: THE HUSKY FLEET PROGRAM FOR YOUR BUSINESS.

THE HUSKY FLEET PROGRAM SAVES YOU MONEY, TIME AND PAPERWORK.

The Husky Fleet Program is a convenient way for your business to manage and control fuel purchases. In today's tight economic climate, it's an easy way to save money, cut the amount of time spent managing expenses, and streamline paperwork.

THE BENEFITS MAKE THIS BUSINESS DECISION EASY.

Our Fleet Program has a number of benefits to make your business run more smoothly. First, you enjoy a volume fuel discount for your business vehicles. Second, you receive a detailed monthly statement where transactions are consolidated by card number. Finally, you maintain total control, by restricting purchasing to only those types of transactions you pre-authorize.

All purchases can also either be used to earn CAA Dollars® or help your preferred community non-profit organization through the Husky Community Rebate Program.

HUSKY FUELS ARE GOOD FOR YOUR FLEET.

Whether you fill up with Mother Nature's Fuel™ or DieselMax™, your vehicles get a quality fuel product proven for the rigors of Canadian driving.

Mother Nature's Fuel is our ethanol-blended gasoline. It has natural cleaning properties to keep your fuel system free from sludge and deposits. It's also the perfect fuel for Canadian winters because it has a natural gas line antifreeze. You get sure starts and help reduce greenhouse gas emissions.

DieselMax is Husky's cleanest diesel fuel ever. It goes to work right away cleaning your vehicle's fuel injectors and fuel filter, while also delivering peak combustion performance and lower emissions. As part of a conscientious fleet maintenance program, DieselMax can provide maintenance savings and better fuel economy.

ACCURATE AND TIMELY BILLING INFORMATION.

You can set up your billing on a weekly or monthly basis. Your invoices detail all relevant data, including card numbers, volume, price, taxes, dates and times of transaction. Fuel discounts are automatically applied, depending on the total volume for the account. As a cost management tool, you'll find the Husky Fleet Program really pulls its weight.

APPLY TODAY, AND GET YOUR FLEET PULLING TOGETHER.

Husky fleet discounts, coupled with great fuel products, can make an impressive difference in your operational efficiency and bottom line. You can pick up an application form at any of the more than 500 Husky and Mohawk locations across Canada, or download one online at myhusky.ca.
